

The new Dentrix virtual workshops provide you with the benefits of a live, trainer-led class without the time and expense of travel. You'll get live feature demonstrations, hands-on practice time, and a workbook with step-by-step instructions. Best of all, you can attend a virtual workshop at a time and place that fit your schedule—all you need is two hours, a phone, and a computer with an internet connection.

Practice Success

BUILD A RE CARE SYSTEM THAT WORKS

Set up and clean up your continuing care.

Are patients falling through the cracks of your recare system? Learn the best way to set up your continuing care system to keep patients active on their recare schedule. Discover the most common setup mistakes and how to correct them, and get tips to clean up problems in your system so you can be confident you won't lose track of any patients.

This workshop is a live, online class with hands-on practice and optional lab time. Attend this class if you are new to managing continuing care in Dentrix or are trying to clean up your continuing care system. You will receive an email with the class workbook and links to join the workshop after you register.

LENGTH: 2 HOURS + OPTIONAL 1 HOUR OF LAB TIME | PRICE: \$149 | CLASS SIZE: MAX 10

WHAT YOU'LL LEARN

ASSIGNING AND MANAGING PATIENT CONTINUING CARE

In order to keep track of when patients are due for recare, you need to understand how to use the continuing care tools in Dentrix. Find out how Dentrix tracks recare for each patient and what you need to do to ensure that due dates are correct. Learn how to assign continuing care types to a patient, customize continuing care settings for individual patients, schedule continuing care appointments correctly, and find patients who are overdue for their recare.

CONTINUING CARE CLEAN-UP

If former team members have been using continuing care in Dentrix without really understanding it, you probably need to clean up your system to get it working properly. Learn how to customize the kinds of recare procedures you want to track, find patients attached to old types you don't want to track anymore, and get rid of those unwanted continuing care types. You'll also find out how to specify which continuing care types are tracked when you set certain procedure codes complete.

WHO SHOULD ATTEND

This online workshop is for you if you:

- Are a front office Dentrix user or hygienist who schedules recare appointments
- Are responsible for tracking patient recare or filling holes in the hygiene schedule
- Need an understanding of how the continuing care system in Dentrix works
- Need to correct or clean up errors in your current system and find patients overdue for care
- Want hands-on training in a virtual classroom with a certified Dentrix trainer

TOPICS AT A GLANCE

- Customizing continuing care settings and due dates for individual patients
- Finding patients overdue for continuing care procedures
- Scheduling continuing care appointments with the correct information
- Cleaning up unused or incorrect continuing care settings in Dentrix
