About This Manual

Welcome to Easy Dental

We are delighted to have you aboard and would like to help make your transition as smooth as possible. The Easy Dental program contains a wealth of information. To assist in gathering a portion of this information, we developed this worksheet.

Why Should You Fill This Out?

This document will help you organize important setup information that will need to be entered once you have installed Easy Dental. By reviewing and completing this worksheet, you will have all of the pertinent setup information in one place, which will save you time configuring your software.

If you purchased training, the use of this worksheet will increase the amount of time the trainer will have to focus on training your staff rather than helping you configure your system. If you did not purchase training and you would like to, please contact the Easy Dental Customer Service department at 800-824-6375, option 31. You can also call the Customer Support department for help with your software as well. They can be reached at 800-824-6375, option 21.

There will be a description for each item at the top of the section, so that you know what the item does in Easy Dental and how it can serve your practice's needs. Fill in the blanks the best you can and then once Easy Dental is installed, you will have a ready reference to help your practice get started on the right foot.

General Office Information

Practice Information

The following information is information that may print on your billing statements as well as on insurance claims sent to the insurance carriers. Please list the information for your office below.

Practice Title: _____

Address: _____

_____

City: _____ State: _____ Zip: _____

Phone: _____ Ext: _____

Administrative Contact: _____

HIPAA Officer: _____

Bank Deposit Number: _____

Fiscal Year's Beginning Month: _____

The Administrative Contact is used for sending e-claims. This will give insurance companies a specific person to speak with regarding patient information. The Administrative Contact must be a primary provider.

The HIPAA Officer allows you designate a person in the practice in charge of making sure your office is always HIPAA-compliant. This is for your practice's information only and will not affect anything in Easy Dental.

Practice Schedule

If a new patient were to call and inquire about your office hours, what would you tell them? List your hours below.

	Example	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
IN	8:00 am							
OUT								
IN								
OUT	1:00 pm							
IN	2:00 pm							
OUT	5:00 pm							

Is your practice open on any Saturdays during the year? _____

Is your practice open on any Sundays during the year? _____

Does your practice have "team huddles/staff meetings" during the week when there should be no patients scheduled? _____

Operatories

List the names of your operatories. This will be entered as the description for the operatories entered in your database.

OP-1: _____ OP-5: _____ OP-9: _____

OP-2: _____ OP-6: _____ OP10: _____

OP-3: _____ OP-7: _____ OP11: _____

OP-4: _____ OP-8: _____ OP12: _____

Provider Information

Fill in the blanks with the appropriate information for each provider in the practice. If you have more than two doctors and two hygienists, copy the provider information sheets from pages 2 - 5 first.

Doctor 1 Information

Name: _____

ID: _____ Title: _____ Specialty: _____

Address: _____

_____

City: _____ State: _____ Zip: _____

Phone: _____ Ext: _____

SS#: _____ State ID: _____ TIN: _____

Medicaid: _____ Drug ID: _____ Provider: _____

Blue Cross/Blue Shield ID: _____

Is this provider a primary or secondary provider? _____

Does this provider work in a specific operatory? _____ If so, which one(s)? _____

_____

Does this provider work during the regularly scheduled office hours or does he/she work different hours? In the provider works different hours, list the hours below.

	Example	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
IN	8:00 am							
OUT								
IN								
OUT	1:00 pm							
IN	2:00 pm							
OUT	5:00 pm							

Does this provider work on any Saturdays during the year? _____

Does this provider work on any Sundays during the year? _____

Does this provider have any specific times during the week when they are not in the office? _____

Does this provider have any specific times that he/she would like to see patients with certain types of needs, such as crowns, bridges, new patients, etc.? _____
If so, list the specific type and times in the Easy Day Planning area of this worksheet.

Doctor 2 Information

Name: _____

ID: _____ Title: _____ Specialty: _____

Address: _____

_____

City: _____ State: _____ Zip: _____

Phone: _____ Ext: _____

SS#: _____ State ID: _____ TIN: _____

Medicaid: _____ Drug ID: _____ Provider: _____

Blue Cross/Blue Shield ID: _____

Is this provider a primary or secondary provider? _____

Does this provider work in a specific operatory? _____ If so, which one(s)? _____

_____

Does this provider work during the regularly scheduled office hours or does he/she work different hours? In the provider works different hours, list the hours below.

	Example	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
IN	8:00 am							
OUT								
IN								
OUT	1:00 pm							
IN	2:00 pm							
OUT	5:00 pm							

Does this provider work on any Saturdays during the year? _____

Does this provider work on any Sundays during the year? _____

Does this provider have any specific times during the week when they are not in the office? _____

Does this provider have any specific times that he/she would like to see patients with certain types of needs, such as crowns, bridges, new patients, etc.? _____
If so, list the specific type and times in the Easy Day Planning area of this worksheet.

Hygienist 1 Information

Name: _____

ID: _____ Title: _____ Specialty: _____

Address: _____

_____

City: _____ State: _____ Zip: _____

Phone: _____ Ext: _____

SS#: _____ State ID: _____ TIN: _____

Medicaid: _____ Drug ID: _____ Provider: _____

Blue Cross/Blue Shield ID: _____

Is this provider a primary or secondary provider? _____

Does this provider work in a specific operatory? _____ If so, which one(s)? _____

_____

Does this provider work during the regularly scheduled office hours or does he/she work different hours? In the provider works different hours, list the hours below.

	Example	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
IN	8:00 am							
OUT								
IN								
OUT	1:00 pm							
IN	2:00 pm							
OUT	5:00 pm							

Does this provider work on any Saturdays during the year? _____

Does this provider work on any Sundays during the year? _____

Does this provider have any specific times during the week when they are not in the office? _____

Does this provider have any specific times that he/she would like to see patients with certain types of needs, such as crowns, bridges, new patients, etc.? _____
If so, list the specific type and times in the Easy Day Planning area of this worksheet.

Hygienist 2 Information

Name: _____

ID: _____ Title: _____ Specialty: _____

Address: _____

_____

City: _____ State: _____ Zip: _____

Phone: _____ Ext: _____

SS#: _____ State ID: _____ TIN: _____

Medicaid: _____ Drug ID: _____ Provider: _____

Blue Cross/Blue Shield ID: _____

Is this provider a primary or secondary provider? _____

Does this provider work in a specific operatory? _____ If so, which one(s)? _____

_____

Does this provider work during the regularly scheduled office hours or does he/she work different hours? In the provider works different hours, list the hours below.

	Example	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday	Sunday
IN	8:00 am							
OUT								
IN								
OUT	1:00 pm							
IN	2:00 pm							
OUT	5:00 pm							

Does this provider work on any Saturdays during the year? _____

Does this provider work on any Sundays during the year? _____

Does this provider have any specific times during the week when they are not in the office? _____

Does this provider have any specific times that he/she would like to see patients with certain types of needs, such as crowns, bridges, new patients, etc.? _____
If so, list the specific type and times in the Easy Day Planning area of this worksheet.

Easy Day Planning

Easy Day Planning

Many practice management consultants advocate a strategy of scheduling just the right balance of high production, medium production, and low production procedures. Easy Dental helps achieve that balance by allowing you to reserve certain times during the day by blocking those times for scheduling of specific procedure types (i.e., high production, low production, etc.).

Appointment Types

The first step in setting this up in Easy Dental is to create appointment types. These types can then be assigned to procedures, time blocks, and appointments to set them apart. Listed below are the four appointment types that are installed with Easy Dental. **You can add up to 10 in your database.** You may make changes to the types listed in the column to the right of the existing description or add your own. Once these types are entered into Easy Dental, you will be able to assign them to procedures. (See Procedure Code Setup to assign a specific appointment type to a procedure.)

ID	Description	ID	Description
1	General	6	
2	High Production	7	
3	Medium Production	8	
4	Low Production	9	
5		10	

Time Blocks

A time block allows you to block times in the Schedule module for certain appointment types and providers (i.e., high production, low production, crowns, meetings, etc.). Once Easy Day Planning has been set up and activated, you will see a colored border with the time block name and the provider assigned to that block. Anyone attempting to schedule an appointment with an appointment type not matching the blocked time will be warned and asked if they want to override the warning. **You can set up six time blocks for each provider within Easy Dental.**

Provided below are six time block forms. Make copies for each provider. There are also two examples of time blocks below. One illustrates a time block for crowns and another illustrates a time block for being out of the office.

Example 1

Time Block Name: Crowns	Provider: DDS1	Assigned Operatory: OP-1
Time Block Color: Dark Blue	Block Appointment Type: High Production	

Days	Start Time	End Time
Sunday		
Monday	8:00 am	10:00 am
Tuesday		
Wednesday	1:00 pm	3:00 pm
Thursday	8:00 am	12:00 pm
Friday		
Saturday

Recall

Recall is the system in Easy Dental designed to keep track of recurring patient visits. Each patient can be assigned to one or more recall types with a due date range attached that can be updated automatically. This range can be individualized per patient or left as the default. (Ask your trainer or call Support to find out how to individualize the interval for a patient.)

In Easy Dental, you can attach a recall type to procedures, so that when those procedures are completed, the due date is automatically updated for the patient.

Below are the recall types that are currently in the Easy Dental database. At the end of the list, there are also some blanks that you can use to add more recall types if you would like.

Name	Description	Interval	New Interval	Attached Procedures
LAB CASE	track lab cases	2 weeks + 1 day		
Other	other dental recall	1 year + 1 day		
PERIO	periodontal maintenance	4 months + 1 day		D4910
PROPHY	periodic cleaning and exam	6 months + 1 day		D1110, D1120, D1201, D1205
SCREENING	oral cancer screening	1 year + 1 day		D7286

Because changing and/or deleting a recall type can be difficult once it has been attached to a patient, you should make sure that everything is set up the way you want it to be in the very beginning.

Billing Types

Billing types are assigned to families to help categorize them in Easy Dental. For example, finance charges need only apply to certain families. Therefore, you can assign those families one of the billing types for finance charges. Currently, there are nine billing types that are setup in the database. **However, up to 99 types may be added to the database**.

Below are the current billing types and their descriptions. Blank cells are provided to add your own billing types and descriptions. You may also change the existing ones by entering the new description in the column to the right of the current description. You can use any kind of description that will set one family apart from another.

Because changing a definition will affect everything it is assigned to, you should make sure that everything is set up the way you want it to be in the very beginning. This will help eliminate in problems in the future that may occur because of changing and existing definition.

ID	Description	
1	Standard Billing - finance charges	
2	Standard Billing - no finance charges	
3	Insurance Family - dual insurance	
4	Insurance Family - finance charges	
5	Payment Plan - finance charges	
6	Payment Plan - no finance charges	
7	Bad Debt - at risk	
8	No Statement and No Finance Charges	
9	Bad Debt - to collections

Medical Alerts

Medical alerts notify your practice as to a patient's medical status. Currently, 49 medical alerts are set up in the database **with a maximum capability of 64**. Below are the medical alerts currently in the system. Medical alerts can be changed or added according to your preference. If you would like to change an existing alert, simply enter the new description into the column to the right of the existing description.

ID	Description		ID	Description	
1	*Pre-Med - Amox		33	Liver Disease	
2	*Pre-Med - Clind		34	Mental Disorders	
3	*Pre-Med - Other		35	Nervous Disorders	
4	Allergies		36	Other	
5	Allergy - Aspirin		37	Pacemaker	
6	Allergy - Codeine		38	Pregnancy	
7	Allergy - Erythro		39	Radiation Treatment	
8	Allergy - Hay Fever		40	Respiratory Problems	
9	Allergy - Latex		41	Rheumatic Fever	
10	Allergy - Other		42	Rheumatism	
11	Allergy - Penicillin		43	Sinus Problems	
12	Allergy - Sulfa		44	Stomach Problems	
13	Anemia		45	Stroke	
14	Arthritis		46	Tuberculosis	
15	Artificial Joints		47	Tumors	
16	Asthma		48	Ulcers	
17	Blood Disease		49	Venereal Disease	
18	Cancer		50		
19	Diabetes		51		
20	Dizziness		52		
21	Epilepsy		53		
22	Excessive Bleeding		54		
23	Fainting		55		
24	Glaucoma		56		
25	Head Injuries		57		
26	Heart Disease		58		
27	Heart Murmur		59		
28	Hepatitis		60		
29	High Blood Pressure		61		
30	HIV		62		
31	Jaundice		63		
32	Kidney Disease		64		

Because changing a definition will affect everything it is assigned to, you should make sure that everything is set up the way you want it to be in the very beginning. This will help eliminate in problems in the future that may occur because of changing and existing definition.

Even though the medical alerts may not be listed alphabetically in Definitions, they will be listed alphabetically in the Patients module.

By putting an asterisk in front of a description, Easy Dental will sort that alert at the top of the list.

Some offices will place an asterisk after a definition that is more general to remind them to check the Patient Notes for a more detailed description of the alert (i.e., cancer and then in the Patient Notes field of the Patients module, you can enter the type of cancer the patient has/had.).*

Explosion Codes

Explosion codes are five-character codes that will post one or more procedures at a time. They can also be created to always post procedures with certain surfaces or quadrants. All explosion codes begin with the "xx" prefix. Decide on an explosion code name and then attach up to eight procedures, including other explosion codes, to that code.

Currently, there are 10 explosion codes already set up in the database. Listed below are the currently explosion codes in the database as well as a few examples of what explosion codes can do. Then, two standard and two bridge explosion code templates are available for you to add more if you would like.

Easy Dental knows when you post a procedure to an anterior or posterior tooth and will make sure that a posterior code is used when posting to a posterior tooth and an anterior code is used when posting to an anterior tooth. So, it does not matter which code you attach to the explosion code as Easy Dental will always change it to the correct one if necessary. (This is also the case with the number of surfaces being posted.)

Existing Explosion Codes

Code	Name	Purpose	Keep	Change	Delete
xx2sA	DO Amalgam	Will allow you to post an amalgam for the distal and occlusal surfaces on any tooth without having to choose both surfaces each time it is posted.			
xx2sC	DO Composite, post-permanent	Will allow you to post a composite for the distal and occlusal surfaces on any tooth without having to choose both surfaces each time it is posted.			
xx3sA	MOD Amalgam	Will allow you to post an amalgam for the mesial, occlusal, and distal surfaces on any tooth without having to choose each surface every time it is posted.			
xx3sC	MOD Composite, post-permanent	Will allow you to post a composite for the mesial, occlusal, and distal surfaces on any tooth without having to chose each surface every time it is posted.			
xxBRG	Bridge	Will allow you to post a bridge on a series of teeth. Easy Dental will post retainers on the two tooth at the end of the series and pontics in-between.			
xxPex	Initial Perio Exam	Will allow you to post a scale and root plane for all quadrants as well as a complete oral evaluation and a complete bitewings series all at once.			
xxRCC	Tx Root Canal and Crown	Will allow you to post a root canal and a full cast noble metal crown on any tooth at the same time.			
xxREA	Recall - Prophy, Adult	Will allow you to post an adult prophy, four bitewings, and a periodic oral evaluation all at once.			
xxREC	Recall - Comprehensive	Not only will this explosion code allow you to post an adult prophy, four bitewings, and a periodic oral evaluation all at once, it will also post a pulp vitality test, collection of microorganism culture, caries susceptibillity test, and a complete bitewings series.			
xxREP	Recall - Prophy, Child	Will allow you to post a child prophy, two bitewings, and a periodic oral evaluation all at once.			

Example Explosion Codes

Description: DO Amalgam	**Explosion code:** xx2sA
Abbreviated Description: DO Amalg	**Block Appointment Type:** General
Procedure Time: 3 units	**Type:** Standard
Purpose: This is an example of an explosion code that will always post the same surfaces each time it is posted.	

Procedure 1	D2150 - DO

Description: Bridge	**Explosion code:** xxBRG
Abbreviated Description: Bridge	**Block Appointment Type:** General
Procedure Time: 4 units	**Type:** Bridge
Purpose: This is an example of a bridge explosion code that allows you to choose pontic and retainer procedure codes.	

Pontic Procedure Code	D6240
Retainer Procedure Code	D6750

Example Explosion codes (continued)

Description: Recall - Comprehensive	**Explosion code:** xxREC
Abbreviated Description: REComp	**Block Appointment Type:** General
Procedure Time: 7 units	**Type:** Standard
Purpose: This is an example of a explosion code that contains another explosion code as one of the procedures.	

Procedure 1	D0460
Procedure 2	D0415
Procedure 3	D0425
Procedure 4	D0210
Procedure 5	xxREA

Description: Initial Perio Exam	**Explosion code:** xxPex
Abbreviated Description: PerioExam	**Block Appointment Type:** General
Procedure Time: 5 units	**Type:** Standard
Purpose: This is an example of a explosion code that will post to a specific quadrant each time the code is used.	

Procedure 1	D0150
Procedure 2	D0210
Procedure 3	D4341 - UR
Procedure 4	D4341 - UL
Procedure 5	D4341 - LR
Procedure 6	D4341 - LL

Description: Tx Root Canal and Crown	**Explosion code:** xxRCC
Abbreviated Description: TxRC/Crwn	**Block Appointment Type:** General
Procedure Time: 37 units	**Type:** Standard
Purpose: This is an example of a explosion code that will post all parts of a treatment plan rather than making you post each part (i.e., root canal and then the crown) individually.	

Procedure 1	D3310
Procedure 2	D2792

Schedule Module Definitions

Appointment Reasons

Appointment reasons are shortcut procedures that can be assigned to appointments using the Initial button. Using these appointment reasons can save time in scheduling. Below are the 20 Easy Dental defaults. **You can have up to 20 in the database.**

You can change the existing appointment reasons by entering the new code in the column to the right of the existing code and a new description in the column to the right of the existing description. You can also use an explosion code and any procedure that does not require a tooth number, surface, or additional information when posted.

ID	Code		Abbreviated Description	
1	D0120		D0120 Ex Per	
2	D0140		D0140 Ex Lim	
3	D0150		D0150 Ex Com	
4	D0230		D0230 PAadd	
5	D0210		D0210 FMX	
6	D0220		D0220 PA 1st	
7	D0272		D0272 2 BWX	
8	D0274		D0274 4 BWX	
9	D0330		D0330 Pano	
10	D0460		D0460 PV Tst	
11	D1110		D1110 Adult	
12	D1120		D1120 Child	
13	D1203		D1203 FlorCh	
14	D9110		D9110 PltvTx	
15	D9310		D9310 Consul	
16	D4910		D4910 PerMnt	
17	xxREA		REAdult (Exp	
18	xxREP		REChild (Exp	
19	xxREC		REComp (Exp	
20	xxPEX		Perio X (Exp	

Because changing a definition will affect everything it is assigned to, you should make sure that everything is set up the way you want it to be in the very beginning. This will help eliminate in problems in the future that may occur because of changing and existing definition.

Appointment Statuses

Easy Dental appointments can be assigned a status. It shows as a colored bar on the left of the appointment and acts as a quick reminder as to the status of the appointment. Below are the current appointment statuses and their assigned color. You may change the abbreviation, description and/or color if desired by entering the desired change in the column to the right of the column containing the existing information. **Easy Dental allows up to 10 appointment statuses to be entered into the database.**

ID	6-Character Abbreviation		Status Description		Color	
1	??????		Appointment Set		Yellow	
2	FIRM		Appointment Confirmed		Green	
3	EMER		Emergency Patient		Blue	
4	HERE		Patient Has Arrived		Red	
5	READY		Ready for Operatory		Yellow	
6	INTX		Treatment in Progress		Yellow	
7	COMP		Treatment Completed		Yellow	
8	++++++		Appointment Completed		Yellow	
9	MISSED		Missed Appointment		Yellow	
10						

Payment/Adjustment Types

Payment Types

When entering payments, you will be able to define the type of payment. Below are the 10 Easy Dental default payment types; **up to 40 types can be entered in the database.** Theses descriptions print on the billing statements. You can change the existing payment types if you would like by entering the new description in the column to the right of the existing description.

ID	Description	
1	Check Payment - Thank You	
2	Cash Payment - Thank You	
3	VISA/MC Payment - Thank You	
4	Payment from Insurance	
5	Discover Payment - Thank You	
6	AMEX Payment - Thank You	
7	Outside Payment - Thank You	
8	Web Patient Payment - Thank You	
9	Collection Payment - Thank You	
10	Pre-EZD Ins Pmt - Thank You

Because changing a definition will affect everything it is assigned to, you should make sure that everything is set up the way you want it to be in the very beginning. This will help eliminate in problems in the future that may occur because of changing and existing definition.

Adjustment Types

In Easy Dental, you can post different types of adjustments to patient ledgers. Below are the 23 Easy Dental default adjustment types; **up to 40 types can be entered in the database.** The adjustment type description will print on the billing statements. A negative adjustment will decrease a patient's balance whereas a positive adjustment will increase it.

You can change the existing adjustment types if you would like by entering whether or not it should be a positive or negative adjustment and the new description in the columns to the right of the existing information.

Procedure Buttons

In the Chart module, you can post treatment quickly using the 24 procedure buttons. Below are the 24 default buttons and their assigned ADA code. Write in a different ADA code if desired and select an icon by its assigned letter from the list at the bottom of this page to represent that code.

Icon	Code	New Icon	New Code	Icon	Code	New Icon	New Code	Icon	Code	New Icon	New Code	Icon	Code	New Icon	New Code
	D2140				xx3sA				D2330				D7140		
	D0120				D0140				D2750				D0150		
	D0160				D3310				D0210				D0220		
	D1351				D0274				D0272				D1110		
	D1201				D9110				15110				D5110		
	D5120				15009				D6240				D6750		

Available Buttons

A1	A2	A3	A4	A5	A6	A7	A8	A9	A10	A11	A12	A13
B1	B2	B3	B4	B5	B6	B7	B8	B9	B10	B11	B12	B13
C1	C2	C3	C4	C5	C6	C7	C8	C9	C10	C11	C12	C13
D1	D2	D3	D4	D5	D6	D7	D8	D9	D10	D11	D12	D13
E1	E2	E3	E4	E5	E6	E7	E8	E9	E10	E11	E12	E13

You can not only assign standard ADA codes to a procedure button, but you can also assign multi-codes and conditions as well.

Easy Dental knows when you post a procedure to an anterior or posterior tooth and will make sure that a posterior code is used when posting to a posterior tooth and an anterior code is used when posting to an anterior tooth. So, it does not matter which code you attach to the procedure button or multi-code as Easy Dental will always change it to the correct one if necessary. (This is also the case with the number of surfaces being posted.)

It is not recommend that recall procedures be assigned to procedure buttons as they should NEVER be treatment planned or posted from the Chart module.

Prescriptions

Easy Dental can store prescriptions that can be used with the Rx module. Below, add the prescriptions that your practice would most commonly use, using the Amoxicillin example as a guide. If necessary, copy this page to add more prescriptions

Description	Drug Name	Sig.	Disp.	Refill	Substitute Permitted	Notes
Amoxicillin	Amoxicillin 250 mg	OneQ 6 H	24	0	Yes	Please call our office immediately if you have an adverse reaction. Our emergency phone number is (801) 763-9301.

Passwords

Security Rights

Make a copy of this form for each provider and staff member in your practice that will be assigned password rights before filling out this form. Easy Dental recommends storing these sheets in a safe place once they are completed with passwords.

Below is a list of the security rights available to assign as passwords in Easy Dental. Do the following to get ready to set up passwords in your office:

- If you would like any rights to verify a password each time that area of Easy Dental is accessed, write the right down in the Verify User Before Access area. Easy Dental recommends that the following rights be verified each time they are accessed ensuring that only the right people will be able to access them:

  - Password Administration

  - Audit Trail Reports

  - Audit, Clear

  - Payments, Delete Guarantor Payments

  - Payments, Delete Insurance Payments

  - Payments, Edit Guarantor Payments

  - Payments, Edit Insurance Payments

  - Print Time Punch Report

  - Time Clock, Clock In/Out

  - Time Clock, Edit Punches/Notes

  - Time Clock, Setup

  - Utility Administration

- Fill in the name of the provider/staff member, the assigned provider/staff ID, and the password for that person. (You may want to write down the password as the last step of this process to help keep them secret.)

- Place a checkmark next to each of the items below that will be assigned to this provider/ staff member.

  - If a provider/staff member will be assigned all rights in DENTRIX, write down a Yes next to All Rights.

  - If the provider/staff member has the same rights as another person in the practice, place a checkmark in the column next to Copy Rights and then enter the person's name that they should be copied from.

We strongly recommend that you review password rights based on job functions. For instance, the appointment coordinator in your practice may only need access to the Schedule module's related functions in Easy Dental. Remember, securying your database protects both you and your employees from any possible situations such as data entry errors or unethical business practices.

Procedure Code Setup

In this area, you can customize each procedure in the database to fit the needs of your practice. You will have the ability to add procedure codes to each category if desired, change the existing abbreviated description, set up the time units, select an appointment type, choose the treatment area of the procedure, choose whether or not this procedure is a difficult procedure, and whether or not it should be billed to insurance.

Time units are equal to the time increments that are being used in the Schedule module. For example, if your appointments are broken into 10-minute increments, three time units would equal 30 minutes. Enter the number of time units to be assigned to each procedure in the U column. In Easy Dental, you will be able to decide how each time unit will be used (i.e., chair time, assistant time, and doctor time).

The appointment type choices in your database will correspond directly with the appointment types that you set up during the Easy Day Planning setup in this worksheet (see page 6).

The treatment area will determine whether or not Easy Dental will ask for additional information, such as tooth number, quadrant, sextant, etc. when a procedure is posted. Most of the codes are already setup with the proper treatment area. However, some offices do like to change the areas for some procedures. If you would like to change the treatment area for a procedure, simply enter the change in the row underneath the existing treatment area. Your choices are, Surface, Tooth, Mouth, Root, Quadrant, and Sextant.

The treatment flags allow you to determine whether or not a procedure will appear in the category buttons in the Chart module, which should be restricted to procedures that are most often performed in your practice, as well as determine whether or not a call should be made to the patient at the end of the day because they had a difficult procedure performed. Your choices are:

- Difficult Procedure - This will print an asterisk next to the patient's phone number on the Day Sheet indicating that a follow up call should be made to them at the end of the day. In the Tx Flags column, enter a DP if the procedure should be marked as a difficult procedure.

- Condition - This will turn the procedure code into a condition, which will not allow you to treatment plan or complete the procedure. This should be reserved for things like, recession, fractured tooth, etc. In the Tx Flags column, enter a C if the procedure should be marked as a condition.

- Remove Tooth - This will remove the tooth from the tooth chart whenever the procedure is posted. In the Tx Flags column, enter a R if the procedure should remove the tooth when it is posted in a patient's account.

- Show in Chart - If this is checked, then this procedure will show in its corresponding category list in the Chart module. If this is not checked, then it will not be listed. You should only check this for the procedures that are performed most often in your practice, so that this list is kept to one page making it easy to find the procedures. (If you need to post a procedure that is not listed, you can manually search for the procedure in the Chart.) In the Tx Flags column, enter a SC if the procedure should be listed in its corresponding category list in the Chart module.

If you have any procedures that should never be billed to insurance, there is an option in Easy Dental that allows you to indicate this. For example, if you add a code for toothbrush, you will not want to bill that to insurance, so if you check Do Not Bill to Insurance, Easy Dental will not attach this code to a claim when the procedure code is posted to a patient's account. If there are any codes that should not be billed, simply place a checkmark in the No Ins column.

Fee Schedules

Fee Schedules are the fees that you want to charge for all procedures. There are 999 fee schedules available in the Easy Dental system, all of them currently set with $0 amounts. Below are listed the standard ADA codes with three fee columns. Fill in the appropriate name and amounts of each fee schedule. Many offices only have a need for one fee schedule. However, if more fee schedules are needed, copy these sheets before beginning.

Fee Schedule Names

Fee 1: _____ Fee 2: _____ Fee 3: _____

Fee Schedules

Diagnostic

ADA Code	Description	Fee 1	Fee 2	Fee 3
D0120	Periodic oral evaluation			
D0140	Limited oral evaluation			
D0150	Comp oral eval-new/estab pat			
D0160	Detail/extensive oral eval, B/R			
D0170	Limited re-evaluation estab pat			
D0180	Comprehensive perio evaluation			
D0210	Intraoral-complete series (bw)			
D0220	Intraoral-periapical-1st film			
D0230	Intraoral-periapical-each add'l			
D0240	Intraoral-occlusal film
